What is Twitch?

The leading live streaming platform where people play games, make crafts, and showcase their day-to-day lives, attracts over two million broadcasters every month. The number grows each year, thanks in part to how easy it has become to live stream, and platforms like Facebook, Instagram and YouTube also increasingly encourage people to share and watch live stories. With the push of a button on your game console or phone, you can share whatever you're doing at that exact moment with friends and strangers alike. The rise of popular (and profitable) influencers on platforms like YouTube and Twitch has also made the idea of being an online influencer aspirational. Some parents note that their children pretend to unbox toys to a nonexistent audience, and teachers report that their students often say they want to pursue YouTubing as a career.

If live streaming is a practice, the person behind the camera is the product. While there are things you can practice and improve, your popularity as a streamer comes down to whether or not people like you or find you interesting.

Challenges

Live streaming can be a fun activity, but not being able to edit your content at a later stage poses challenges. Whatever you say is out there for good, and users should be conscientious of the dialogue they use.

Choosing just to stream the game is the safest possible option available, adding in live video streaming of yourself can open up challenges with accidental leaking of personal information. It allows anyone and everyone to see what you look like and your personal environment. Be wary of accidentally leaving personally revealing objects in frame (i.e. a school uniform, or a letter with an address). Ensure that you have conversations with your young person about potential risks involved, such as stranger contact, potential bullying or their information being

INSTAGRAM

Instagram is a photo and video sharing app that has been an almost exclusively mobile platform. Once the user has either taken/selected a photo or video they can scroll through the editing filters and experiment with the best one for that particular image.

How does it work?

On Snapchat, users go by a handle.

To add friends, you can upload your contacts, search for people you know or use the 'Quick Add' feature of add friends of friends or strangers easily. You can also automatically add someone by taking a picture of their "Snapcode," a special QR code unique to each user.

To begin a conversation every Snap starts with a photo or video. Snapchatters can layer text, emojis, doodles, and more on top, and choose how long they want the Snap to be displayed (up to 10 seconds). Then, you can send the Snap to one or more friends. Stories is a feature that lets you string Snaps together into one longer narrative that stays available for 24 hours.

Be mindful who are you sharing images with and always remember that everything on the internet is permanent. Make sure you are happy for potentially anyone to see your snaps and share without permission.

Live Stories

Live Stories are compilations of Snaps submitted by Snapchatters from events and locations around the world. Discover allows you to explore channels from established publishers who curate their own content. The Discover screen in Snapchat also includes a selection of the day's Live Stories.

Video and Text Chat

Snapchat also allows for one-on-one chat. Like Snaps, chats are cleared when a recipient leaves the Chat screen. But you always have the option to save a message you'd like to keep.

Lenses, Filters and Stickers

There are many ways to customise the look of your Snaps. Lenses add real-time special effects and sounds to a Snap. Filters offer different design overlays. Geo-filters are a popular way to customise your Snap at specific locations or events around the world. Stickers are colourful images and cartoons that give you additional ways to share content.

APP FACTS

ROBLOX

ROBLOX is the world's biggest platform for emerging and independent game developers, and they offer the ability to earn real money from their creative efforts.

ROBLOX is open to people of all ages. Each player starts by choosing an avatar and giving it an identity. They can then explore ROBLOX - interacting with others by chatting, playing games, or collaborating on creative projects. Each player is also given their own piece of undeveloped real estate along with a virtual toolbox with which to design and build anything.

NOTE: Although Roblox is primarily for children, without permission from a parent or legal guardian the app is deemed 18+.

How does it work?

To sign up to Discord you simply need an email and a username. It takes under five minutes to make an account with Discord. This enables the user to open up invitations and messages from people around the world.

To add somebody on Discord the user must have the other person's username. This can easily be asked through in-game chat.

Challenges

Some of the issues with Discord are that younger children may get invitations from random users thinking it is safe to chat with them. A criminal has the potential to groom the child and get various sources of information such as: credit card details, house address, school, age and much more.

Ensure that you have conversations with your young person about the potential risks involved with using platforms like Discord.

The Carly Ryan Foundation is seeing young users being asked to add people on Discord. This can create the opportunity for criminals to groom, manipulate and coerce young users through conversations that unfold via various gaming platforms.

Discord is a great app to help users communicate with their friends but without the right settings in place it can expose the user to unwanted or inappropriate contact from criminals or by strangers.

Privacy Settings Menu

Click the little down arrow next to the server name and you'll find a drop-down menu window. In addition to being able to adjust notification and server settings, you can adjust privacy settings on a per-server basis as well. Selecting / deselecting this option lets you block DMs (Direct Messages) from users in that server that aren't on your friends list. Normally, sharing a mutual server is all it takes to allow DMs. This option can

How to make your Facebook profile private

Step 1

- 1 Click on the three parallel lines at the bottom right corner of the screen.
- 2 Scroll to the bottom and click the 'Settings & Privacy' tab and click 'Settings'.
- 3 Click on the Timeline and Tagging option.
You can control everything with regards to who gets to post and tag on your Timeline and also who can see it. Go through all seven options and customise it for you. Activating Timeline review is also recommended. Once you've done this your Timeline will only be viewable to the people you choose to look at it.

Step 2

Go to the 'Privacy' tab in the settings page. Facebook offers you several different options so you can adjust exactly how private you want to be. Check your privacy settings regularly. Often when Facebook updates the settings may go back to public by default.

Other Privacy Settings

To manage your privacy on Facebook (on a computer), access the privacy settings by clicking on the downward facing arrow in the upper right-hand side of the page and select 'Settings'. In the left hand column, click on 'Privacy'.

To access these settings on a mobile device select the three lines on the bottom right of your screen. Scroll down to 'Settings & Privacy'. Here you can change a number of settings: Restricting who can see the users profile

YouTube is free video sharing website and application that is owned by Google. The platform allows its users to upload, create and watch other users videos. With over 1 billion users it is one of the most popular platforms on the internet.

Anybody can access videos on YouTube, but in order to upload a video the user must create their own YouTube account. If a user sees inappropriate content they can '*flag*' or report it if it violates YouTube's community guidelines. Many popular types of videos on YouTube are music videos, '*how to videos*' and gaming videos.
